The Problem

Global trade is weakening around the world and countries are starting to depend more on themselves than on helping others.

-  **Less access to currencies and financial markets**
-  **Less access to commodities**
-  **Less access to goods and services**

The Solution

EFC Global

EFC Global is working to fill the gap in the current global market by creating its own financial network and currency that helps easily connect everyone.

The Product

EFC Global Financial Network

Global Pay
